## PRES. SMALL MAY ORDER A GENERAL STRIKE AT CHICAGO UPON ARRIVAL

Every Part of Country Now Tied Up With the  
Strike and All Business is Crippled  
by the Walk Out

### NEWS ASSOCIATIONS SUFFER WITH THE REST

Advocate Got Telegraph News From United Press by Long  
Distance Phone Today--Order Coming Tomorrow  
Will Stop Practically Every Telegraph Instru-  
ment in the United States and Canada.

CHICAGO, AUG. 13.—AT 1:15 THIS AFTERNOON GENERAL SECRETARY-TREASURER RUSSELL ISSUED THE FOLLOWING NOTICE TO ALL PRESIDENTS AND SECRETARIES:  
"PRESIDENT SMALL IS EN ROUTE TO CHICAGO AND WILL ARRIVE TOMORROW. IT IS THE JUDGMENT OF THE GENERAL SECRETARY AND THE EXECUTIVE BOARD THAT A GENERAL STRIKE SHOULD BE ORDERED AT ONCE. SUCH AN ORDER WILL PROBABLY BE ISSUED IMMEDIATELY UPON PRESIDENT SMALL'S ARRIVAL HERE. PREPARE YOUR FORCES ACCORDINGLY."

The Advocate was compelled to get its telegraph news today from Columbus, over long distance phone. The United Press headquarters at Cleveland are trying to serve their clients as usual, but owing to the sympathy of the railroad telegraphers between Newark and Cleveland, it is impossible to get the matter through. The minute the matter is heard going over the wire, a railroad operator opens his key or pulls a plug from the switch board and the message is ended.  
The general strike order expected at Chicago tomorrow will cripple the commercial telegraph business in the country as it was never crippled before. The striking forces profess that the government will then take a hand and force a settlement by arbitration or otherwise.

PEORIA IN LINE.  
Peoria, Ill., Aug. 13.—All Western Union and Postal operators in Peoria and Bloomington, left their keys at 10 o'clock this morning. Thirty-five men are involved.

NEILL PESSIMISTIC.  
Chicago, Aug. 13.—"No man is going to settle this strike," was the pessimistic remark made today by Charles P. Neill, U. S. Commissioner of Labor, who is here as President Roosevelt's peace envoy.

The Advocate says he can see no prospects of a settlement in sight and added that the struggle between the telegraph companies and the operators is a hopeless proposition. As an evidence of his belief that an agreement cannot be reached in the immediate future he stated that he does not intend to confer with officials of either telegraph company at once. C. E. Hill of Toronto, a member of the International Strike Board, arrived here today. He will address the operators at a meeting today. Hill brings word that the Canadian Pacific railroad is looking for operators.

BOSTON OPERATORS OUT.  
Boston, Aug. 13.—All the union operators employed by the Postal Telegraph company, walked out at 11:10 o'clock today.

AT SPRINGFIELD, ILL.  
Springfield, Ill., Aug. 13.—W. U. and Postal operators walked out today. No one remained at work.

UTICA, N. Y., JOINS.  
Utica, N. Y., Aug. 13.—Today the night and day forces of the Western Union and Postal operators in this city are on strike. This forenoon the postal messengers went out because a non-union operator had been put to work in the office.

AT LOUISVILLE, KY.  
Louisville, Ky., Aug. 13.—The telegraph operators of Louisville joined the strike today, both the Postal and Western Union being affected. About 100 men are out. The office forces are supplying limited service.

TOLEDO SERVICE CRIPPLED.  
Toledo, O., Aug. 13.—Twenty-one union men walked out of the local Western Union office this morning. The service is badly crippled.

TIE UP AT PITTSBURG.  
Pittsburg, Aug. 13.—There is almost a complete tie up of telegraph business here. The Postal suffered the most and has hardly a half dozen

companies in Washington, are on a strike today according to the estimates of local union officials. Following the action of the postal employees yesterday afternoon the night force of the Western Union struck at 8:20 a. m. The Postal men had acted on their own initiative, and contrary to the advice of the executive committee of the local union, which had been in session all afternoon. The committee had decided to postpone action until tomorrow noon. After the Postal men had left their keys President Groves, of the local union, announced that the union would stand by them, meantime the Postal operators had flocked to the W. U. office and made an enthusiastic demonstration.

"Come out! Come out!" shouted the strikers from the street. The Western Union remained, however, until the following message from Deputy President Thomas arrived from New York:

"New York has gone out. I desire that you should order out all Western Union and Postal men at once."

A whistle was blown by a member of the executive committee and the whole force of union men and women at once left their posts. The messenger boys joined the strike today.

Three of the seven night operators of the Associated Press in Washington quit last night when word came of the Associated Press strike in Chicago. Of the three day operators only one reported for duty this morning. Both Western Union and Postal are accepting messages, the Postal with the proviso, "subject to delay." The strikers claim that there are only two operators on duty today in the postal office, besides the chiefs.

ROOSEVELT KEEPS INFORMED.  
Columbus, O., Aug. 13.—Postal operators are out at Scranton, Pa., and both offices are out at Indianapolis. President Roosevelt is not inconvenienced by the strike as he has a wire direct to Washington. He has received several messages supposed to have been purporting to the strike.

### GENERAL STRIKE MAY BE ORDERED IN CHICAGO

(Bulletin.)  
Chicago, Aug. 13.—Acting President Russell's statement just issued says: At 11 o'clock this morning the general executive board will meet in his office to decide if they will order a general strike. It won't be necessary to wait for President Small as the latter had already approved any action Russell might take.

"The O. R. T. has a defensive alliance with the C. T. U. A. in the United States and Canada and they will not touch any commercial business offered to them in the country."

"The long distance relay men who operate the mechanical repeaters are also members of the C. T. U. A. They have been instructed not to allow any messages which are substitutes for telegrams to go over these wires."

New York, Aug. 13.—The strike of telegraphers which originated last Friday at Los Angeles, where it was directed against the Western Union company, spread eastward and reached New York city, where three spontaneous "walkouts" followed in rapid succession. These were directed against the Western Union, the Postal Telegraph company and the Associated Press. With the stopping of work by a majority of union operators here, a situation unparalleled has followed, the telegraph business, though by no means being tied up, being seriously handicapped. Percy Thomas, deputy national president of the Commercial Telegraphers' union, said: "The Commercial Telegraphers' union of America will win this fight with the telegraph companies because it is in the right. My advice is to the effect that office after office is walking out."

General Superintendent Brooks of the Western Union said: "We have more operators than we need and we had to send 10 men home."

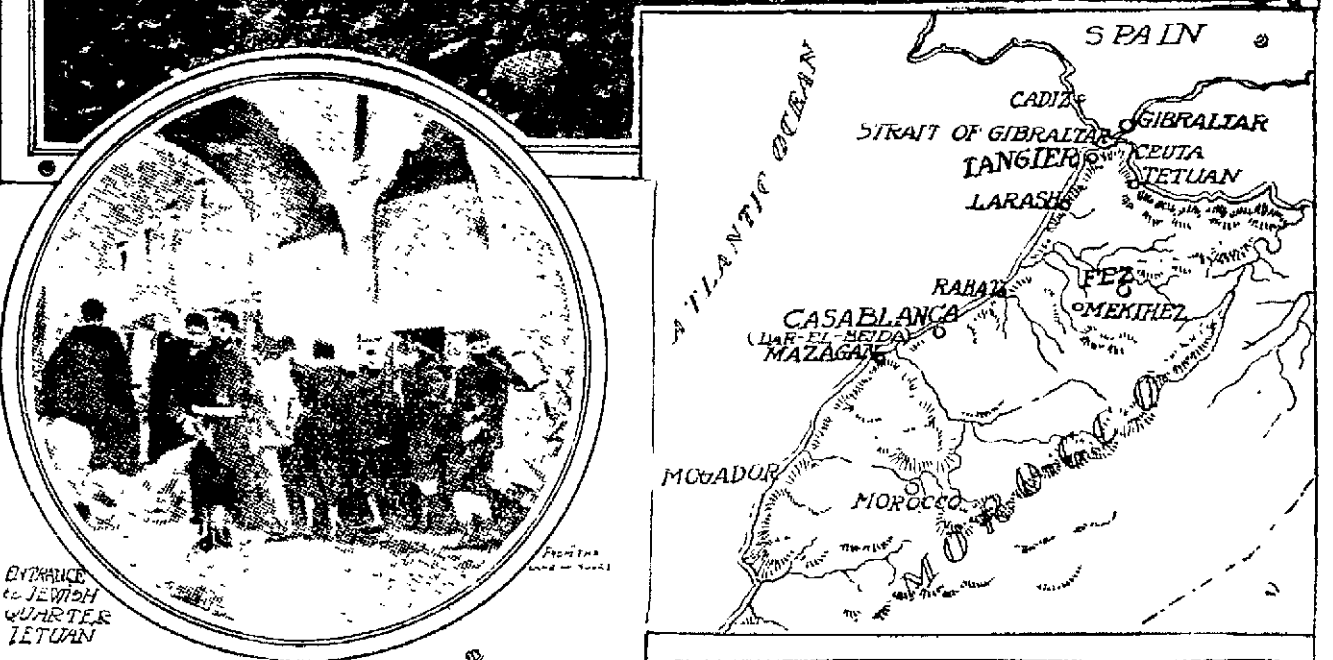

Other cities throughout the country which had not yet been affected quickly followed the lead of New York. Virtually everything west of Pittsburgh and throughout the south was tied up. Some of the eastern cities did not join the strike, but they were alone and could not send messages because there were practically no men to receive them.

Throughout the country 15,000 operators have left the keys. More than 100 cities and towns are affected, and with one or two exceptions they include all the important places in the United States. There remain only a few offices to be ordered out, and the strike will spread to them at any time. There will be a further tremendous extension of the strike today. In the big Wall street offices, commission houses and other big concerns of New York and the rest of the country there will be no operators at work. The enormous losses occasioned by the strike will then begin to be apparent.

Some of the financial houses, however, have contracts with their operators. These will be able to continue.

### EXPOSITION NOT COMPLETE

It Would Equal Buffalo's Show If All  
Details Were Finished—Frisco  
Show Is Best Entertainment.

(By Staff Correspondent.)

Old Point Comfort, Va., Sunday evening—Owing to the telegrapher's strike the companies here will accept dispatches subject to delay only. There is no assurance that telegrams flew along our route will reach Newark within a reasonable time so I shall give this letter into Uncle Sam's care and from now on wire only such dispatches as I think have a fair chance of reaching destination.

The Advocate girls are so delighted with Old Point Comfort that they are trying to dismiss the thought of leaving on Tuesday evening. Their hotel in this charming spot overlooks the ocean and from the hotel windows may be seen the battleships and other craft anchored in Hampton Roads. The ocean is within 50 feet of either side of the hotel, the site of which is a neck of land leading on the west to the wharf and on the right to Phoenix and Hampton. Across the water, six miles away, is the Jamestown Exposition which, with its brilliantly lighted front, affords a pretty sight at night. The girls have splendid rooms and the cuisine pleases every one of them.

Mr. Doughty made two trips by launch to the United States battleship Missouri in Hampton Roads before he secured permission for our party to board the vessel. Visitors are allowed only at certain hours and the regular visiting time conflicted with our Exposition program. When the commander learned that the girls were from Ohio he threw up his hands and surrendered. The waves were rolling high and the little craft tossed violently but every girl proved to be a good sailor. The officers on board were very polite and the marines while all taking notice as the party walked about the ship, maintained the best behavior. Not one spoke unless he was addressed and no coarse or insinuating remarks were made by a single one of the 600 men on board.

The officer who admitted the Advocate party, assigned a young sailor to pilot us over the warship and the girls went from "cellar to garret," answering everything and getting civil answers to the hundreds of questions they asked. The guide showed how the four 12-inch guns and the sixteen 6-inch guns were operated and explained that 25 pounds of powder were required to explode one of the smaller guns. Now some are trying to figure the cost of the battle of Manila. The girls went through the kitchen where they saw Japanese cooks baking bread and pies and dressing fish and chicken for the mid-day meal. Just before the girls boarded the warship the seamen had given the vessel its daily bath and everything about the ship was as clean as soap and water and polish could make it. As the party left the ship by launch to return to Old Point where a steamer for the Exposition ground was waiting, one of the officers gave an illustration of "wigwag" telegraphing, communicating by means of flag signals with an officer upon another ship. He held a flag in either hand and "talked" by waving the flags much as the deaf and dumb communicate by manipulation of the fingers.

Soon after setting foot upon the Exposition ground, a heavy rain fell, but before the downpour the girls reached the Ohio building and there passed the time pleasantly though the elements outside were in busy action. The Ohio building as many know, is a reproduction of Governor Worthington's home at Chillicothe, Ohio, built of stone with a broad livable porch and spacious rooms. While not the most pretentious state house on the ground, it is one of the most inviting and one of the best appointed. The Ohio girls received cordial welcome and upon their return on Tuesday refreshments will be served in their honor by the Ohio colonial societies.

As to the Exposition itself—it is worth seeing but is not in the same class with either Chicago or St. Louis. It is still in an unfinished condition and many of the exhibits are incomplete. The government pier will be a masterpiece when finished but the indications are that this feature of the show will be done about the time the Exposition closes next November. If the work now underway were all finished the Exposition would compare very favorably with Buffalo's show. We visited a number of the exhibits

### BILLIARD ROOM WRECKED AT CHICAGO

Chicago, Aug. 13.—Police have no clue, but are seeking solution of the dynamite explosion wrecking Jim O'Leary's palatial billiard hall. The Blind John Condon's residence was dynamited less than two months ago, and the Mont Tennis garage was wrecked in the same manner soon after.

doing business. It is expected that many others will sign contracts at once. In Chicago and other big cities where the strike has been in progress for more than two days, many private concerns using leased wires have met the terms of the strikers and are able to do their wire business, but the majority are crippled in their outside dealings.

Even the cable companies are doing business under difficulties. The operators were perfectly willing to receive messages from abroad, but the transmission of them to nonunion operators in other places was a different matter, and few keys were clicking.

## MANY CITIES

Affected by the Telegraphers' Strike, Chicago Situation.

Chicago, Aug. 13.—The strike of the telegraph operators spread rapidly, the men walking out in many cities in the east and west. The chief strike of the day was in New York, where the operators of both the Western Union and Postal companies left their keys. Other strikes during the day were as follows: Western Union—Montgomery, Ala.; Savannah, Augusta, Ga.; Des Moines, Ia.; Chattanooga, Tenn.; Cleveland, Buffalo, Baltimore, Toledo; Columbia, S. C.; Pittsburgh, Postal—Columbus, Des Moines, Denver, Los Angeles, Salt Lake City, Cleveland, Philadelphia, Buffalo, Baltimore; Columbia, S. C.; Washington.

The strike in this city did not spread beyond the limits it had attained Sunday.

day. The union scale as favored by the operators was presented to a number of brokers during the day. The only strike in this direction was that of two men employed by A. H. Nohe. They struck because they were asked to handle Western Union market quotations. Two of the largest commission houses in the city signed the scale presented by the operators, and also issued a call for a meeting of representatives of other commission houses to discuss measures of warring off the strike.

Arbitration advocates, in the shape of Secretary Easley of the National Civic Federation and Labor Commissioner Neill, arrived in the city, but their mission was made difficult before they arrived by the statements of Superintendent Cook of the Western Union and Capen of the Postal company to the effect that they would arbitrate nothing. Secretary Wesley Russell of the telegraphers expressed himself in a similar manner. Both companies announced that they will treat with their men as individuals. Secretary Russell said that the operators would not agree to arbitrate for the reason that the fight was already won. Samuel Gompers, president of the American Federation of Labor, arrived in the city Monday but declares that the situation had not materially changed since his arrival. Both of the companies claimed to be in better shape than at any time since the commencement of the strike.

The operators in the office in this city and on the south and western circuits of the Associated Press leased wire system stopped work Monday night at 7:30 o'clock. The strike was made against the wishes and advice of Grand Secretary Russell of the telegraphers' union, who tried to keep the men at work for another 24 hours, or until satisfactory arrangements could be made for a conference with Melville E. Stone, the general manager of the Associated Press, and a committee of the operators.

## Operators Quit.

Philadelphia, Aug. 13.—The Postal Telegraph company operators went on strike. There was little evidence of a strike movement among the telegraphers in this city until after the operators in New York went out. The Postal company was the first to feel the effect, when two men refused to work with nonunion men. They were immediately dismissed, and shortly afterward three more were discharged for also refusing to man a New York wire. Other men also refused, and later President Sullivan of the local blew the whistle.

## Strike at Montreal.

Montreal, Aug. 13.—Between 25 and 30 operators in the Great Northwestern Telegraph company's office struck in sympathy with the operators in the United States.

## All Walk Out.

Washington, Aug. 13.—All the Washington union operators walked out. Only the chief operators and a few wire men remained on duty.

## Strikebreakers.

Binghamton, N. Y., Aug. 13.—Edward A. Baird, manager of the Western Union in this city, with a party of 10 operators, have been drafted to Chicago from this vicinity as strikebreakers, and left for that city on a special train.

# ROCKEFELLER PREDICTS BIG MONEY DISASTER

Cleveland, Aug. 13.—In a wonderful interview with a Cleveland newspaper correspondent here today, John D. Rockefeller condemned what he termed a "runaway policy" of the present administration.

Only once during the remarkable talk was a question asked of him. "If the present policy of the administration toward large commercial combinations is continued, what, in your opinion, will be the effect upon the country at large?"

"The effect of the runaway policy of the present administration towards business combinations of all kinds have only one result," declared Mr. Rockefeller. "It means disaster to the country, financial depression and financial chaos."

"The world already has a foretaste of it, once an extreme penalty imposed upon one corporation with a limited number of shareholders, so to speak, has caused a loss of confidence reflected in a falling stock market, a tightening of money, a fear of the future. Your newspapers are full of this slump and of the feeling of unrest. They ascribe it to only one thing. What will be the effect when similar action is taken against the corporations with myriads of stockholders scattered throughout the entire country, the investor of moderate means, the widow and the orphan? There can be but one answer. The present situation will be intensified many fold. It does not require an expert to reason that out.

The most superficial thinker can do it.

"I will go further and say today that because of the course of the administration with its reports every few minutes of new actions and of heavy fines, the country has already begun to drift towards the rocks of financial depression. Confidence is gone and confidence is the basis of everything material in this life. With it there can be no stopping of the wheels of progress; without it, the investor, great and small, locks up his money, declines to venture forth."

## DISSECTS NATIONAL POLITICS

Party Government Not the Representative of Public Opinion, Declares the Kentucky Editor, Who Makes an Address at a Fair—Synopsis of His Speech.

Lexington, Ky., Aug. 13.—Henry Watterson discussed national politics in an address delivered at the Blue Grass fair, which opened here. He said:

"We pride ourselves upon living under a government of public opinion. Would it not be truer to say we live under a government of party organization? Is it not also that good party organization makes small account of public opinion where it feels itself strong enough to defy it? The corruption of parties—the revelation of this corruption which has reached the common knowledge of the past few years, have confounded the Democrats and brought the Republicans to their knees. The politicians of both parties are appealing as never before to the people. Mr. Roosevelt vies with Mr. Bryan in the proposal of specifics more or less novel and drastic, but each claiming to be curative. A majority of one in either camp settles it; a majority of one between the two camps settles it. In both camps the more violent and active men, ever intriguing for advantage, draw the more moderate and passive men after them; and although the two sets of moderate men united might constitute a majority, they can not act together because of an artificial line raised in the interest of professional place-hunters, too often at the expense of the country. I do not say that party government is a failure, but I do say that party government claiming to be the representative of public opinion is a humbug. It is a mischievous humbug. Surely it would not be myself that was talking to you if I did not edge in a word about the constitution, but when I say 'back to the constitution' I address myself equally to the Republicans and the Democrats.

"Under the hand of a president whose personality is so attractive that most men are loath to question anything he says or does, under the rule of Theodore Roosevelt—the pendulum of centralization has swung much too far to leeward and will need to be swung back again if we are to recover the poise and balance to which, in weighty and wise words George Washington refers, and which the fathers and founders of our great republic designed for the federal government and the states. In other words, the constitution is a clearly defined chart of limited and enumerative powers meant to check the encroachment of one department of the government upon another and to make the exercise of arbitrary power impossible."

Will Prosecute Olga Molitor.  
Karlruhe, Germany, Aug. 13.—Counsel for Carl Hau, formerly of Washington, D. C., under sentence of death for the murder of his mother-in-law, Frau Molitor, have entered a motion to prosecute Olga Molitor, the deceased woman's daughter, for perjury because her lawyer has given out a statement in her behalf saying that she saw the person who shot her mother and is convinced that it was Hau, whereas she repeatedly answered the judge's inquiries during the trial by saying she did not recognize the murderer and had no idea of his identity.

## Germans Take the First.

Kiel, Germany, Aug. 13.—The Germans won the first of the series of international sonder klasse races for Emperor William's cup, the Wittelsbach finishing 31 seconds ahead of the Spokane 1, the other contestants coming in as follows: Wanssee (German), Chewink VIII (American), Marblehead (American) and Tilly X (German). It was a fine contest, the yachtsmen doing interesting work from start to finish.

Heat Victims.  
Memphis, Tenn., Aug. 13.—As a result of the extreme heat here, following several days of a torrid wave, three men died of prostration. They are: William Honan, a sign painter; H. M. Cook, a barber, and John Myers, city employee.

## Sir Harry MacLean Released.

Tangier, Aug. 13.—Caid Sir Harry MacLean has been handed over by his captor, the bandit Raisuli, to the Elkes tribe, who in their turn set him at liberty.

## Knights of Maccabees.

Norfolk, Va., Aug. 13.—The Uniform Rank, Knights of Maccabees of the World, began their biennial convention and encampment at the Jamestown exposition, and will continue during the week. A notable feature will be competitive drills among the various commands for the \$800 silver trophy cup, now held by a Toledo (O.) company.

## To Enforce Anti-Trust Laws.

St. Louis, Aug. 13.—The attorneys general of the Mississippi valley states met here to formulate plans for a national conference of attorneys general, at which concerted action to enforce various state anti-trust laws can be arranged. The meeting was at the invitation of Attorney General Hadley of Missouri.

## Why Do You

???

place a sign before your place of business? Because you want your friends to know you are in business. If you did not do so, it would take years for them to find out where you were or what you were doing. How do you expect your friends to know you have a house, lot, horse, buggy, or any other article for sale unless you put up your sign. THE VERY BEST place to put that sign is in THE ADVOCATE WANT COLUMNS. Because they reach the people today, tomorrow, all the time. Because, the cost is so little—only 25 cents for 18 words 3 days.

## ANNOUNCEMENTS OF CANDIDATES

The Advocate will begin the printing of the announcement of the names of candidates for the Democratic primary election in the Daily Issue of August 19, and the Semi-Weekly issue of August 20.

The price of \$2 will be charged for candidates for Representative and city officers, and \$1 for assessors and township officers, payable in advance.

## A REPUBLICAN GOLD BRICK.

Never did a set of politicians occupy so absurd an attitude as the Republicans who are promising to revise the tariff after the next Presidential election. Never did a group of politicians so plainly show that they were thimble-rigging. If revision be a good thing, why not do it next winter? If it be ruinous, why threaten to do it in 1909? If it be popular the Republicans ought to do it before the Presidential campaign and get the benefit of their conduct at the polls. But if it be unpopular the surest way for the Republicans to get beaten is to threaten to revise the tariff if they shall be successful. These Republicans are simply offering the revisionists, who are getting alarmingly abundant, a gold brick; they promise them tariff revision "tomorrow"—when fools repent.

### PRIMARY ELECTION NOTICES.

It will be seen by the call issued for the Democratic Primary Elections that the law requires that three notices be posted in each precinct at least ten days before the primary election is held, which duty must be attended to by the Central Committeemen. Printed notices for this purpose will be sent out to the Committeemen by the County Chairman.

### CERTIFICATES OF CANDIDATES' NAMES.

The notice of the Democratic Primary election published elsewhere in this issue specifies that all names of candidates to be printed on the primary election tickets must be filed with the Chairman of the Central Committee not later than August 27. All names thus certified to the Chairman of the Central Committee will be printed on the primary election tickets for the convenience of the

voters in the various precincts of the county.  
The tickets, when printed, will be sent out by the County Chairman to the Committeemen of each precinct in time for the holding of the primary election.

## NEW DEMOCRATIC FACES IN SENATE

Death and Political Reverses Will Change the Complexion on the Minority Side.

Washington, Aug. 13.—The election of Joseph F. Johnston to succeed Senator Pettus of Alabama is an interesting addition to the small company of Democratic senators who next December will find seats on the minority side. The newcomers, besides Senator Johnston, will be John H. Bankhead, succeeding John T. Morgan of Alabama; Jefferson Davis, succeeding James H. Berry of Arkansas; Robert L. Taylor, succeeding Edward W. Carmack of Tennessee; and Thomas H. Paynter, succeeding Joseph C. S. Blackburn of Kentucky. John Sharp Williams, recently chosen at the Mississippi primary to succeed Senator Money, will not take his seat until later.

Besides those succeeded by Democrats there were four other Democrats—Clark of Montana, Gearin of Oregon, Dubois of Idaho and Patterson of Colorado—who were succeeded by Republicans.

Bankhead of Alabama is the only new Democratic senator to take his seat in the Sixtieth Congress who comes straight from the House to the Senate. Senator Johnston comes from private life, though he is not without experience as a public servant, having been governor of Alabama from 1896 to 1900. He is a lawyer, but is better known as a financier. He was the first president of the Sloss Iron & Steel company, and is credited with having accumulated a large fortune in late years.

Senator Davis was last in the public service as governor of Arkansas. Senator Paynter comes from the Kentucky circuit bench to which he was elected after having served three terms in the House.

Senator Taylor served one term in the House nearly a quarter of a century ago, and subsequently was three times governor of Tennessee.

Morrison was about 35 years of age. No cause is assigned for the suicide.

**Rail Victims.**  
Columbus, O., Aug. 13.—Joseph Erickson, 50, a white laborer, was found dead by the railroad tracks near the East Columbus Panhandle yards. Near him was a little white dog which had probably been crushed to death by the man's body, although there were no marks or bruises about it. W. G. **WOI K THAT TELLS.**  
Plenty of It Has Been Done Right Here in Newark.

Cures that last are cures that tell. To thoroughly know the virtues of a medicine you must investigate the cures and see if they prove permanent. Doan's Kidney Pills stand this test, and plenty of proof exists right here in Newark. People who testified years ago to relief from backache, kidney and urinary disorders, now declare that relief was permanent and the cure perfect. How can any Newark sufferer longer doubt the evidence?

E. Frank Edwards, plasterer, of 152 Ash street, Newark, O., says: "I had backache and had it bad. For several years I was suffering from sharp, shooting pains in the region of the kidneys and a dull aching and weakness in the back which was becoming very serious. I tried remedy after remedy without finding relief, and I nearly lost hope when I began using Doan's Kidney Pills, obtained at Crayton's Drug Store. It was a gratifying surprise to find after a few doses of this remedy the pain seemed somewhat abated, and I continued the treatment for some little time, using several boxes. I was thoroughly cured. I gave a testimonial at that time to others. It is now eight years since I made that statement, and I am glad to be able to say that the cure was permanent."

## HARRIMAN MUST EXPLAIN DEAL TO U. S. COURTS

THAT PURCHASE OF CHICAGO AND ALTON STOCK IS WHAT NEEDS AIRING.

Railway Magnate Refused to Answer Questions at Federal Hearing. Must Show Why.

New York, Aug. 13.—A petition was filed in the United States circuit court in this city by United States District Attorney Stimson, who asks that E. H. Harriman, the railway magnate, and Otto H. Kahn of the firm of Kuhn, Loeb & Company, be summoned into court to show cause why they should not answer certain questions relating to the control of the Chicago & Alton railroad. These questions were asked during the interstate commerce commission investigation of the Chicago & Alton several months ago. Mr. Stimson acted for Attorney General Bonaparte in filing the petition.

The questions to which the government demands answers from Mr. Harriman and Mr. Kahn refer to the purchase of the controlling interest in the Chicago & Alton and the Illinois Central by the Union Pacific company. In 1904 the Union Pacific purchased 103,431 shares of Alton stock through Kuhn, Loeb & Company, at 86¢. The stock was deposited with bankers, with the understanding that it was to be sold to the Union Pacific at price to be made by a committee composed of Harriman, John A. Stewart and John J. Mitchell. At the hearing Harriman was asked what part of stock so disposed of he owned. He refused to answer. Harriman refused to answer questions as to the amount of his holdings of Union Pacific preferred, nor would he state the holdings of H. H. Rogers, H. C. Frick and himself in the Santa Fe. Other questions Harriman declined to answer had to do with his interest in purchase of 105,000 shares of Illinois Central, 10 per cent dividend of Southern Pacific, and his profits occasioned by sudden rise in this stock following dividend.

**Bonaparte's Statement.**  
Washington, Aug. 13.—Attorney General Bonaparte returned from his vacation at Lenox, Mass., and took up at once many important matters pending in the department of justice. He was unwilling to discuss the reports that he had returned to begin criminal prosecution in the Harriman and Standard Oil cases, but, speaking generally, he said the department stands ready to bring criminal action when there seems a good chance to convict. He expressed no opinion concerning the possibility of conviction in case action is brought in either of the cases mentioned.

**Rising From the Grave.**  
A prominent manufacturer, Wm. A. Fetterell, of Ludana, N. C., relates a most remarkable experience. He says: "After taking less than three bottles of Electric Bitters, I feel like one rising from the grave. My trouble is Bright's disease, in the Diabetic stage. I fully believe Electric Bitters will cure me permanently for it has already stopped the liver and bladder complications which have troubled me for years." Guaranteed at F. D. Hall's drug store. ### STANDARD OIL

Replies to the Latest Report of Commissioner Smith.

New York, Aug. 13.—The Standard Oil company issued a reply to the latest report of Commissioner of Corporations Smith. Among other things it says:

"The inquiries, the reports and illogical deductions of all departments of the government in this matter have been actuated by no other spirit than to 'down the Standard.' What do the American people think of this, not only as a 'square deal' proposition but for its effect on American commerce? The business of the Standard Oil company has been conducted always with careful reference to the rights of the public, and under the best possible legal advice in conformity with our complex laws. At the proper time and place full and complete answers will be made to Mr. Smith's erroneous and illogical statements."

### FIRE INTO CROWDS

Troops Quell Riots in Belfast Streets. Several Fatalities.

Belfast, Aug. 13.—Serious and fatal disorders occurred here again. The troops fired into a crowd and one woman and man were shot dead and a number of others seriously wounded. The trouble came when a mob of men and women attacked a police inspector. Soldiers were at once summoned, but the maddened mob refused to disperse. Bayonet and baton charges failed to rout the frenzied rioters, and ultimately the order to fire was given. The number wounded from the rifle fire and the bayonet charges and otherwise injured is very great, and the hospitals are overcrowded.

**"Forewarned is Forearmed"**

Recently a gentleman informed us that he had bought a piano about four years ago, paying nearly as much for it as we ask for the RAYMOND PIANO.

He wrote to the manufacturers in regard to replacing several worn parts, due entirely to poor material and workmanship and strictly in accordance with the terms of their five-year guarantee.

His letter was returned *unopened* by the post-office with the notation "such firm in business." He was considerably surprised to find that he had bought a strictly commercial thump-box on which had been stenciled a *fictitious name*. He is going to buy a RAYMOND, now that he has been through our factory, heard the RAYMOND PIANO played and found that our ten-year guarantee is backed by 51 years' instrument building on one spot. His experience is but a repetition of many another. The piano he has now is not worth \$25.00, in fact we could not allow him anything for it, advising him to advertise it at private sale.

Our Piano Book, illustrated in colors, is a positive insurance against an equal mistake on your part. Free on request.

Marion, Aug. 13.—The Molders and the Lime Burners broke even yesterday in a double header, the former winning the first by a score of 2 to 1 and the latter the second by a score of 4 to 0.

It was by the greatest of good fortune that the visitors got away with the first contest. Link was hit hard and often but luck seemed to be against the Lime Burners. The locals also indulged in some porky work at times. Al Wilmot was touched up in several innings but in others he was invincible. His support was poor to say the least.

In the second inning bings by Murray, Winters and Berryhill scored the first run of the game. Abbott singled in the second but Wilmot retired the side in order holding the fast fielder on the amen corner.

From that time until the seventh the visitors were held easily by Little Eva and not a safe one was secured. In the fatal seventh Quinn misjudged Smith's long fly, the slam going for a double. Winters hit to Mylett but Daubert forgot to cover first and the runner was safe. Berryhill put up a fly to Farrell who made a perfect throw home turning Smith back but Billy Smith let the ball get away from him and his namesake scored. Link and Abbott singled and Berryhill scored. Snider then drew a pass, filling the corners. It looked as though Newark would increase its lead but Wilmot forced Schweitzer to put up a little one to Mylett and Havel was a cinch from Mylett to first. The visitors were not again dangerously near the scoring point but they had enough to win.

In the last half of the seventh Daubert opened with a single to center and Flood duplicated the trick. Smith went out to Snyder and Wilmot hit an easy one to Link who threw to third to get Daubert. Smith let the throw get away and Daubert scored.

The sixth was quite exciting but not doubled and was forced at third by Mylett, who used poor judgment in trying to hit it out instead of sacrificing. Quinn singled and Blake sent a long one to the middle garden. Farrell was passed and the bases were all occupied but Dithridge was unable to land a safety.

## ONLY A SHINE WAS SERVATIUS

Columbus, Aug. 13.—Vesuvius Saratus Servatius is no longer a member of the Columbus baseball club, having been peddled to Youngstown of the O. and P. league. This long citizen is now in the company where he can break down fences. In the American association he was what is known in the vernacular of the street as a shine. The bleacher crowd got after him owing to his awkward movements, and for three weeks Vesuvius hasn't known whether he was standing on his head or his hands. He has not been on his feet for a long time. He developed into the champion strike-out hitter of the league.

He will at once begin to clout the ball to the fence again in the O. and P. for he has confidence that he can do it there. He lost all confidence in himself here. Jude, who was sent to Youngstown a few days ago, has been brought back. What will be done with him eventually is not known.

MELANGE OF SPORT.

'Tanks, Jimmy.

Nearest the goal.

Only a question of time.

Let's all turn in and make it the banner week.

Fans, do you know that there are only 21 more games at home?

The Athletics' victory over the Tigers yesterday places the former in the lead in the American league race by four points.

Toledo beat Milwaukee by a score of 5 to 0. The Colonels beat St. Paul 5 to 3 and the Millers won over the Hoosiers by 6 to 2.

The Senators had an off day yesterday and left last evening for St. Paul where they begin a series of four games, starting tomorrow.

Billy Edwards, an old time pugilist, died at his home in Brooklyn yesterday. Billy will be remembered for his gameness, having fought nearly 20 rounds years ago with a broken jaw.

Two good things went through at Saratoga yesterday. In the second race Paprika at 10 to 1, won, and in the sixth Magazine at 12 to 1 carried off the money.

Akron gave the Sharon aggregation another shove to the basement yesterday afternoon by defeating them by a score of 2 to 1.

Leon Ames, the Giant twirler formerly with the Zanesville team, was presented with a gold fob by his friends in that city Sunday.

Lee Fohl is hitting at a merry pace for a busher with the Columbus team. His percentage shows .282. Servatius is cracking the horseshoe at .243 and George Upp at .221. Geyer is hitting .203 and Bert Blue .192. These are all O. P. men.

Grand circuit racing was inaugurated at Poughkeepsie today with a small card and a big surprise for the talent from William O., the Geers' pacifier that won in fast time after Alice Pointer had taken the first heat. Jack Leyburn won the 2.16 trot in straight heats.

Elh Cates, pitcher once tried by Kansas City, has been picked up from a coast club by Joe Cantillon.

President Bryce and Manager Clymer of Columbus, agree in thinking that the Philadelphia club, that took the lead yesterday, will win the American league hunting.

Only one game is scheduled in the American association for today, the Brewers at Indianapolis.

Nine points isn't much of a lead to overcome. Let's all help boost during the Marion-Newark series by being there daily.

Quadrille, a hot tip at Empire City track was the good thing yesterday. It went through at ten to one and was quite heavily played by wise ones.

Roy Knabenshue will make a trial trip in his new airship at Columbus Wednesday. Roy has been engaged by the State Board of Agriculture to make flights each day of the big state fair.

beautiful little city along the banks of the murky Muskingum, is that the denizens of that sleepy village have so fallen in love with Marty Hogan that they are talking of running him for mayor. Five and costs for you sir. What! No money. To the stone pile with you. Marty for mayor. Heavens, what next? Wow! Wow!

Youngstown's right garden has been rightfully dubbed the seat of all nations. First it was Mike Lawrence, the old Scotchman. Then Jack McAleese took an all too brief Irish fling at the job; next followed the Indian and Servatius, the Spaniard, has followed in the footsteps of his illustrious fellow countrymen. Cortez and Pizarro, who chased the aborigines several centuries ago. He will appear in Judge's position for the first time this afternoon.

Captain Flood, third baseman of the Lime Burners, is suffering an attack of blood poisoning and it is feared that he will have to retire from the game for the balance of the season.

Schweitzer carried off the honors for the visitors, both with the stick and in the field, Sunday. Although he had a lame foot he made several nice running catches of line drives tagged for two bases.

The plans for Shamrock IV. are said to be practically complete, and Sir Thomas Lipton's challenge for another America's cup race is all but written. He will not send it, however, until the last moment permitted by the rules, as he sees no particular reason to give his friends, the enemy, any more time for preparation than is absolutely necessary.

Newark was credited with ten bings in the first game with the Lime Burners yesterday. Smith was there with a double. Abbott, Smith and Winters each smashed out two hits apiece.

Doc Blough let us down with two hits yesterday and struck out nine men. The doc was the whole clothes.

The Molders play the Champs Sunday and Monday and are going after their scalps to even up the defeat of last Saturday.

Mayor Marty Hogan! Wouldn't that freeze you this hot weather?

The marvelous fielding of Schweitzer had much to do with keeping the Lime Burners safe, says the Marion Mirror. Al robbed the locals out of no less than three safe ones.

The Zanesville P. O. M. team played an exhibition game at Alliance yesterday and lost 6 to 2.

Clyde Adams, of DuBois Interstate league, was yesterday secured by Manager Billy Smith of the Nocks. He will report here today and is expected to be a great acquisition to the Nocks' pitching staff.

With five twirlers on the club the Nocks are expected to go after the leaders hard.

Pitcher Clyde Adams, who was tried out at Lancaster in the spring, but who had already signed with DuBois in the Interstate league, reported at Lancaster yesterday. DuBois blew up a few days ago giving him his freedom. He was the leading twirler in the Interstate. A deal is being pushed to trade Third Baseman Rafals, who is now under suspension, to Youngstown for Servatius.

Michigan's great football coach, Fielding H. Yost, says: "The outlook for a very good team this fall is encouraging. Most of the promising players have passed the examinations and are ready for work. Some have been taking individual work all summer. The schedule calls for seven games with tow big games. Vanderbilt will be played at Nashville and Pennsylvania closes the season November 16 at Ann Arbor."

Heinie Batch, who umpired the game in this city when the Molders played the Brooklyn Nationals the other Sunday, made two of the three hits made by the Troley Dodgers in their game with the Reds Sunday.

James R. Keene, will set a new high water mark for turf earnings this season. His total thus far lacks only \$2,000 or \$3,500 of \$250,000, an the record held by himself is only \$279,000. The winning of the Saratoga futurity with his great Collier or Peter Pan would bring the aggregate nearly up to the mark of 1903, not to speak of the dozen or more rich stakes that appear to be at the mercy of the wearers of the Keene spotted jacket.

Pitcher Johnny Fisher, formerly of the Indianapolis team, and whom Manager Berryhill turned down, left today for Sioux City, Iowa, to play with the Western league team of that city. Fisher is in fine shape and is confident he will be able to make good.

H. S. Collins of Lebanon, Ind., who signed to play right field for the Sharon O. P. team upon the recommendation of Manager Berryhill, of the Newark club, reported there yesterday. He has been playing independent ball in Indiana. Manager Patterson has been unable to obtain a shortstop.

President W. H. Park and Grant Whistler, director in the Youngstown baseball company, have arranged for a treat for the fans there, which will be given when they return from Chaff.

## WORMS

For years suffered from what medical men called Dyspepsia and Catarrh of the Stomach. In August I purchased a box of Cascarets and was surprised to find that I had "got" worms—a big surprise when I showed him thirty feet, and in another day the remainder about the same length of a tape-worm that had been supping my vitality for years. I have enjoyed the best of health ever since. I trust this testimonial will appeal to other sufferers. Chas. Blackstock, 110 North 11th St., West Philadelphia, Pa.

feys' locks, Canada. Arrangements have been made with the Pain's fireworks people, of Chicago, to give the big spectacular exhibition at Youngstown under the auspices of the ball club. The receipts will be used in strengthening the baseball treasury.

It is hard to figure how Newark, Youngstown or Akron would have any chance against Steubenville's priced aggregation. So P. O. M. players assert.

All arrangements save the possible securing of a permit from the somewhat antagonistic new board of supervisors, seem to have been made for the next lightweight championship battle between Joe Gans, the negro title holder, and Jimmy Britt. Joe and Jimmy signed up Thursday night to do battle for 20 rounds at the San Francisco ball park on the night of September 9, Admission day. Jack Gleason representing a coterie of sporting men not in the old trust, secured the match, the fighters considering his \$25,000 guarantee with a 75 per cent privilege, a better offer than Reno's \$35,000 or those of Jim Cofforth and the Tonopah people.

Tomorrow will be ladies' day at the park and the fair ones are given a cordial invitation to go out and see the Molders battle with the Lime Burners of Marion.

Bill Sump, the ex-Lank twirler, will officiate as arbitrator in today's game with the Lime Burners. This will be Bill's first appearance in that capacity at Wehrle Park.

Jimmy Britt and Joe Gans have agreed to fight at 135 pounds. The mill will be pulled off at the San Francisco ball park on the night of September 9.

Arthur E. Herbst, manager of the Americans, now holding forth at Idlewild park, will entertain the ball teams at the park theater this evening. Manager Herbst and several of the Marion boys are great friends and the freedom of the park will be tendered the knights of the diamond.

## GRAND CIRCUIT RACES AT POUGHKEEPSIE

Poughkeepsie, N. Y., Aug. 13.—The Grand Circuit racing began on the Hudson River Driving park track yesterday. The track was fast.

In two events decided there were sensational features, as favorites were bowled over in each. For the Vassar purse, 2:16 trotters, the money was on Thonfield, but the veteran driver, Knapsack McCarthy, uncovered a sleeper in Jack Leyburn, who made his first start of the campaign and won as he pleased. He lowered his record in each heat, scoring 2:09 as a windup to his victory over a field of 13 fleet opponents.

For the 2:13 pace Alice Pointer was the tip, but was only good for one heat. Then the silent man Geers cut loose with William O and by one of his famous lightning finishes took the daughter of Star Pointer into camp. The last half of this mile was covered in 1:00 1-2 and William O had a new mark of 2:05.

The great side-wheeler, Reproachless, was out of form and had to retire, having failed to get any chance for the money after the second heat. Geers landed his fleet pupil without further trouble.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

## NEWARK BOY WOULDN'T "SCAB" IN COLUMBUS

**IT WAS HIS FIRST JOB BUT HE  
LEFT IT WHEN HE LEARNED  
OF THE STRIKE.**

**Gaylor P. Hurlbaugh Took Strikers' Place in Columbus But Quit at Once.**

Gaylor P. Hurlbaugh, the young son of the late Rolandus Hurlbaugh of this city, recently mastered the art of telegraphy in the Postal telegraph office, this city, under Mrs. Swan. Monday Gaylor was notified to report at Columbus to fill his first position in one of the offices of that city. Hurlbaugh took the first train for Columbus, and was soon installed at a desk in one of the uptown offices busily engaged in pounding the key.

He had not been at the key over ten minutes before there was trouble. Some one on the line wanted to know who the "scab" was that was behind the key. This started young Hurlbaugh and he turned around to the superintendent and asked him to explain. The superintendent informed him that all the men had left their keys and struck. Young Hurlbaugh immediately quit his key and demanded his pay, walking out with the other operators.

### British Ship Lost.

### BIRTHDAY ANNIVERSARY.

Mr. Henry Handley, celebrated his 96th birthday anniversary Saturday, August 10 at his home in Jackson town. In spite of his advanced years Mr. Handley proved an ideal host and mingled with his friends as gayly as his great grand children. A dainty supper was served to a number of relatives and friends. Those present from Newark were: Mrs. Harriet Drake, Miss Harriet Wiley, Mrs. Alice Jones and Mrs. Etta Pearce.

It is said that General Kuroki mistook the statue of Lincoln in Chicago for the tomb of the President, and placed a wreath there. No one told him of his mistake of course.

### Chronic Diseases INCREASING UNDER ORDINARY MEASURES YIELD TO THE MATCHLESS RADIO TREATMENT

In the class of serious chronic, obstinate, long standing disease and affliction that baffles the skill of the physicians, that are unyielding under ordinary medical treatment, and that have been quite generally regarded heretofore as incurable, the Radio treatment accomplishes results that are truly marvellous. In all manner of chronic diseases, in all manner of serious afflictions, in all manner of infirmities that impair the usefulness of men and women and make life miserable and unhappy, the great blessing of the Radio treatment has been abundantly shown. Results are certain, there is no long tedious drawn out course of dosing and dragging. There is no ruling in the way of surgical operations, with the dangers attending them. There is no pain, no shock, no discomfort. The treatment is mild, is pleasant and is most efficient and successful.

There is no embarrassment or inconvenience in the treatment, it is not a matter of time or expense, and best of all, the clothing which is worn is not changed.

Do not let me fail to tell you that from old and new patients, who do not do much, there is still hope and hope for you. Do not accept the verdict of the medical profession that you are any one. Thousands of others, whom you are as incurable and cast off and abandoned by doctors whose knowledge is limited only to the old, out-dated half a century ago, have been brought back to health and happiness by Radio Specialists.

The physicians of the X-Ray Medical Institute are Specialists in the true sense of the word—not because

they claim to be, but because a life time of special study, special learning, special training, special experience and constant application to one special line of work has made them masters of the special diseases which they treat and cure.

## BODY FLOATED FACE DOWNWARD ON BUCKEYE LAKE

FISHERMAN DISCOVERED BODY  
OF FRED SHUFF DROWNED  
SATURDAY.

Game Warden Malinski Towed the  
Corpse to the Boat Landing at  
end of Rope.

The body of Fred Shuff, the Knox county man who was drowned in Buckeye Lake, Saturday morning, was found floating face downward in the water by some fishermen shortly after daylight Tuesday morning. The body was terribly bloated and decomposition had already set in, to a great extent.

The men discovered the body floating about three hundred yards east of where the drowning occurred, but refused to touch it. They rowed to the shore and notified a number of men who in turn rowed to the spot, but who also refused to handle the corpse. Finally Game Warden Frank Malinski rowed out and towed it to shore at the end of a rope. One of the companions of Shuff who was with him at the time of his death was at the dock when the body was landed.

It was immediately placed in a large pine box, packed in ice and driven to Hebron and shipped to Centerville on the 9:15 o'clock T. & O. C. train. The body was met at the station by an undertaker and prepared for burial. The remains were taken home and at 2 o'clock interment was made at Fairview, Knox county.
